

TITLE: Entry Level Cable Install Technician

REPORTS TO: Operations Manager

JOB DESCRIPTION:

Building Infrastructure Group, Inc. in Chantilly, VA is seeking hardworking, motivated individuals to fill the role of Experienced Cable Pulling Technician. In this position you will assist BIG's current staff with the installation of infrastructure cable plant systems in the NOVA Metro area. You will also complete all tasks associated with the installation and build-out of Voice/Data/AV infrastructure cabling systems. Both classroom and on-the-job training are provided.

RESPONSIBILITIES:

- Installation and repair of low voltage communication cabling – consisting of copper, fiber optic and coaxial cables within new commercial construction and existing client office space
- Build-out of telecommunication closets to include ladder racking, relay racks, patch panels and management
- Responsible for testing, labeling, and certification of new installations

JOB REQUIREMENTS:

- Motivation and willingness to learn
- Attendance and punctuality
- Familiarity and the ability to work with hand tools
- Flexibility to work various shifts and willingness to travel as needed
- Valid driver's license & reliable transportation to travel between client job sites
- Ability to successfully pass a pre-employment screening process that includes a criminal background check, drug screen, and driving record check

Send your resume to resume@biggp.com. We are looking forward to hearing from you!
