

## Attention Project Managers: It's time to think *B.I.G.*

The Building Infrastructure Group (BIG) team is growing, and we're looking for motivated and talented project managers.

Project Managers with proven past experience in the field of Cable Infrastructure need apply. The ability to effectively lead a team, have complete understanding of the life cycle of a project, and to promote an enthusiastic team are all key requirements. Additionally, BIG needs our Project Managers to be strong in the following:

- Proactively building and sustaining client relationships
- Strong Communication Skills
- Labor & Material Management
- Creating a project plan and ability to monitor and adapt as needed
- Experience in all facets of project documentation (Estimating, Proposals, Contracts, Change Orders, etc)
- Understanding invoicing processes, monitoring WIP, aging reports, etc
- Problem Solving with a drive for results
- Ability to build peer relationships as well as work independently
- Management of multiple projects at anytime

### Basic Qualifications

- 5+ years of Project Management in the field of Cable Infrastructure
- Proficient in necessary PM software: MS Project, Office, AutoCAD etc (or equivalents)
- Scheduling, Planning and Management of multiple teams/installations
- Self-Motivated
- Strong technical, written and verbal skills

### Certifications

- BICSI RCDD or RTPM certification preferred
- Bachelor's Degree preferred

The BIG team is looking forward to hearing from you!
